

How can I identify the model and year of my Club Car?

Starting in the 1980s Club Car vehicles have a serial number plaque at the lower edge of the dashboard. The serial number convention is 12 characters and indicates the model, the model year and the production week the vehicle was produced.

For example: PH0901 -123456 W here PH = Precedent Electric, 09 = 2009 Model Year, and 01 = First Production Week

Note: If you cannot find a serial number plaque contact Club Car with the serial number from the transaxle, electric motor or gas engine. Utilizing that information we can assist you with identifying the serial number of your vehicle.

- A = DS Electric Golf Car
- AA = DS Electric Golf Car, 48 Volt
- AB = DS Electric Golf Car, 36 Volt
- AC = DS Electric Golf Car, 48 Volt Regen
- AQ = DS Electric IQ 48 Volt Regen
- AG = DS Gasoline Golf Car
- PG = Precedent Gasoline Golf Car
- PQ = Precedent Electric IQ 48 Volt Golf Car
